SULTAN SAGALADINOV

PROJECT/PRODUCT MANAGER

Astana, Kazakhstan | sagaladinovsultan@gmail.com | linkedin.com/in/sagaladinov

SUMMARY

Project Manager with a technical (mobile & web development) background, currently the PM in a cross-functional team of 6, owning 4 products end-to-end across FinTech, MedTech and Beauty-tech. Drove an AI MedTech SaaS Platform from discovery to pilots across 20+ clinics and its first paying clinics on recurring revenue. Comfortable running the full product cycle — discovery, technical specs / PRDs, sprint coordination and QA sign-off — and acting as the single point of contact between business and engineering. CS Honours graduate, AWS Cloud Practitioner and Oracle Java certified.

WORK EXPERIENCE

Project Manager Apr 2025 – Present
Rama - Astana, Kazakhstan (Hybrid)

- Project Manager in a cross-functional team of 6 (frontend, backend, QA, design, business analyst); own 4 products in parallel across FinTech, MedTech and Beauty-tech — from discovery and specs through to release.
- **Ascle - AI-powered MedTech SaaS platform:**
  - Led end-to-end development, from product discovery and requirements through launch and iteration.
  - Managed a cross-functional engineering team and coordinated product development, roadmap and backlog prioritization.
  - Launched pilots across 20+ medical clinics, in 3 different regions of Kazakhstan, collecting user feedback and analyzing product metrics to validate hypotheses.
  - Owned key product areas: AI transcription, automated medical documentation, preliminary diagnosis, admin panel and medical-system integrations.
  - Contributed to B2B SaaS strategy, pricing, Go-To-Market and partnerships - helped secure the first 3 paying clinics generating recurring revenue.
- **Kometa - neobank & merchant-map product on a bank BaaS platform:**
  - Owned end-to-end product specs across the mobile app and admin panel.
  - Owned the end-to-end integration with the bank's BaaS platform, coordinating technical requirements and delivery with the partner bank.
  - Specced the admin panel — merchant management, ambassador & blogger attribution and XP-based gamification; aligned requirements with backend, information-security and system analysts.
- **Beautobe - beauty-products marketplace:**
  - Scoped and delivered the marketplace MVP as a full web platform.
  - Led a delivery of a three-role system - vendor/seller, admin and customer - with role-based access, a vendor dashboard for listings and bookings, and an admin panel for catalog and vendor management.
- **Avatariya - mobile app for amusement-park discovery, ticket booking and bonuses:**
  - Drove a full redesign of the app, reworking the UX and booking flow.
  - Launched an achievements system to drive user engagement.
  - Led the implementation of a gamification system for children.
  - Introduced Instagram-style stories (promotional banners) for offers and announcements.
- Held the full product cycle — requirements gathering, spec writing, sprint coordination and QA sign-off — as the single point of contact bridging business and the development team.
